## TEAM RANKING

**Ride as a team like professionals and be ranked both in the solo and team general classification:** Each team will make their own strategy to get three of their riders to the finish line as fast as possible.

The ranking will be based by cumulating the times of the three fastest members. For Mixed teams it must include the times from at least one woman and one man on each stage.

*\*As the 3 fastest riders in each team are only considered for the ranking, we advise large teams to divide into smaller teams to make the most of the challenge! See page 8 for further details.*

## NOTES

As the 3 fastest riders in each team are only considered for the ranking, we advise large teams to divide into smaller teams to make the most of the challenge! If you wish to split into 2 teams, you will need to register as 2 different teams with the same numbered names (ex: "Kings of Malibu 1" and "Kings of Malibu 2"). One of the Team Captains must notify us at [teams@hauteroute.org](mailto:teams@hauteroute.org) so that this is noted in our system.
